

## **Ad-hoc-News**

### **Revenues up by around 46% after 6 months of fiscal year 2004/2005**

CT-DECT TowCom order worth EUR1.92 million delivered to German Armed Forces (German Air Force) in Q2 of fiscal year / Order backlog remains high

---

CeoTronics AG Audio Video Data Communication (ISIN: DE0005407407), Adam-Opel-Strasse 6, 63322 Rödermark, Germany, listed on the PRIME Standard and the "Technology All Share" index, increased its consolidated revenues in accordance with US GAAP as of November 30, 2004 by around EUR2,720 thousand year-on-year from EUR5,935 thousand to around EUR8,665 thousand. This represents an increase of approximately 46%.

Final, detailed consolidated figures will be published with the half-yearly report once these have been established on January 14, 2005.

#### **Issuer's information/explanatory remarks concerning this ad-hoc-announcement:**

The unusually high increase in revenues is due to the delivery and invoicing of the largest single order in CeoTronics' history.

The delivery related to digital communication systems based on the civil product CT-DECT developed by CeoTronics that meets the German Air Force's high standards for this specialized military application. It is also compatible with the recently purchased CT noise protection/communication helmet for handling jets such as the Eurofighter.

Even excluding this major order, however, CeoTronics would have generated a double-digit revenue growth in the Group.

As a result of incoming orders, the order backlog remains high and is well above the previous year.

"This achievement proves that CeoTronics can produce orders of this size without a hitch, and deliver them on time, to the highest quality and the fullest satisfaction of the customer", explained Chief Operations Officer Günther Thoma.
