

CT-ClipCom

Helmet- and personnel independent communication system

Your personnel changes CT-ClipCom stays!

NEW!

Your advantage:

- ➔ One communication system can be used for more persons
- ➔ Highest wearing comfort and high noise attenuation with lamella earplugs or individually molded earpiece
- ➔ Highest flexibility and hygiene by using clip-on system
- ➔ Noise canceling boom microphone (whisper microphone)
- ➔ Two different HeavyDuty PTT's to chose
- ➔ ASR (Level-limited Ambient Sound Reception) optional
- ➔ Available for a wide range of two-way radios

CT-ClipCom is a helmet independent communication system for industry, fire brigades or special forces in police or military to wear under helmets.

A lamella earplug for highest wearing comfort and best noise attenuation or an individually molded earpiece can be connected to three different communication systems. The system is fixed in no time with a simple clip.

In case of personnel changes, only a new lamella earplug or molded earpiece is needed – the communication system can still be used.

KEEP YOUR SENSES OPEN

CT-ClipCom
